

PHP-NUKE Themes

PHP-Nuke Templates are to be used on the PHP-Nuke Content Management System. These templates can be installed in minutes on a system where PHP-Nuke has been pre-installed and configured.

PHP-Nuke allows you to aggregate news and information from various sources allowing your site to always be fresh with new content based on your configurations. The PHP-Nuke templates we provide will provide that additional professional look and feel to your site and the best thing of all it only takes minutes to install.
